W. B. WILSON TRIES IN VAIN TO SWING A.F.L. TO MR. DAVIS

By KENNETH CLARK
I. N. S. Staff Correspondent
Atlantic City, N. J., Aug. 6.—John W. Davis and the Democratic platform today drew a scathing fire from the American Federation of Labor. The executive council of the federation, meeting here behind guarded doors, preparing a denunciatory reply to overtures from Democratic leaders who urged that the Federation's endorsement of Presidential candidates be delayed until after the Davis acceptance speech in Clearfield, Pa., next week.

Samuel Gompers, aged President of the Federation, drafted the reply. It was directed to William B. Wilson, former Democratic Secretary of Labor, one of Gompers' friends and a worker in labor union movements. Wilson previously sent a communication to Gompers asking opportunity to present the Democratic labor stand and Davis' labor record, to the Federation.

Labor chiefs today charged that Wilson's message was forwarded upon the solicitation of Davis himself.

Wilson's communication, however, reached the Federation after the council had endorsed LaFollette and Wheeler.

Council members said today that not even a suggestion was made to accede to the Democrats' wishes. Nothing that Davis may say in Clearfield can alter the Federation's course in the Presidential campaign, Gompers' spokesmen declared today. This was pointed out strongly in the reply together with the statement that not only are Davis and Bryan "unacceptable to labor" but that the Democratic platform, particularly in relation to legislation regulating the hours and conditions of work and "play into the hands of labor's enemies."

Lieut. Wade To Be Given Another Plane In Which To Return To The U.S.A.

Washington, Aug. 6 (INS).—Lieut. Leigh Wade, the American round the world flyer, who was forced down between Scotland and Iceland, will be given another airplane at Pictou, Nova Scotia, to accompany Lieut. Smith and Nelson into the United States on their return it was announced at the War Department today.

Secretary of War Weeks authorized the assembling of a cruising airplane at Langley Field, Va., to be sent to Nova Scotia, for Wade, whose original plane was wrecked.

When the plane is assembled it will be flown to Nova Scotia by Lieut. George McDonald, of the air service, who will make stops at Keyport, N. J. and Boston.

He will arrive at Pictou Harbor a few hours before the arrival of the American aviators from Labrador.

WALTON BEHIND IN OKLAHOMA ELECTION

Oklahoma City, Okla., Aug. 6 (INS).—Congressman E. B. Howard, of Tulsa, endorsed by the Ku Klux Klan, was maintaining a lead of 3,668 votes early today over former Governor J. C. Walton, avowed Klan enemy, in the race for the Democratic nomination for the United States Senate.

NEW YORK SWELTERS IN HEAT WAVE

New York, Aug. 6 (INS).—New York sweltered today in the first real heat wave of the season.

At 11 a. m., the mercury was at 85 and crawling toward 90. The weather man promised relief, saying thundershowers were in sight for this afternoon. Millions slept in the parks, on roofs and on the beaches last night. It was estimated 25,000 slept at Coney Island.

60-YEAR-OLD COUPLE FLY FROM DETROIT TO McKEESPORT

McKeesport, Aug. 6 (INS).—Mr. and Mrs. Richard T. Butler, both more than 60 years old, are home here today telling their friends of their wonderful air trip from Detroit, where they were visiting, to Bridgeville, Pa., near here. The aged couple flew from the Michigan town in an all-metal passenger airplane piloted by Eddie Stinson. This is the second air trip the Butlers have taken.

PENNSY-GRAMS

Pittsburgh—Cooler weather was predicted by the weather man today that will bring relief after Pittsburgh experienced the hottest day of the summer, yesterday causing two deaths and much suffering. It was 93 degrees officially but on the street levels the thermometers hovered around 98 degrees.

Eric—Delegates from Meadville, New Castle, Jamestown and Clarion are attending the sixth annual session of the Erie conference of the Epworth League of the Methodist church at Allegheny College. More than 250 delegates re in attendance.

New Castle—Tomorrow will be the last day of the 125th anniversary celebration of the Founding of the Pine Grove Presbyterian church. The celebration started Sunday last.

Pittsburgh—Only 8 contagious diseases were reported in the last 24 hours by the Pittsburgh Health Department divided as follows:

Smallpox, 2.
Scarlet Fever, 1.
Whooping Cough, 2.
Chicken Pox, 3.

Philadelphia—Slowly the veil seems to be lifting from the mind of Miss Florine Adams, of Germantown, who returned to her home here a victim of amnesia after an absence of five months, during which she worked as a telephone operator in New York under the name of Jane Johnson. Albert Whidden, of Wyncote, gave the tip to her father which led to her discovery, it was learned.

Bethlehem—The driver of the car bearing Pennsylvania license 1, the license number on Gov. Finney's car, has been summoned to appear at a hearing here Friday on a charge of violating the automobile laws. Quinton D. Kendrick, the complainant, charges the auto went through here at an unreasonable rate of speed last Friday. It is not known whether the Governor was in the car.

Philadelphia—A police roundup of "corner loafers and suspicious characters" netted several hundred last night and also aroused a storm of indignation in southwest Philadelphia, where a crowd of women gathered to protest the arrests. They claimed most of those taken were working men, trying to dodge the heat.

Philadelphia—Twelve-year-old Dorothy Walker, of Linfield, near here, was killed last night when her brother backed an automobile over a pitchfork lying on the ground, the prong of which flew up and pierced her brain.

The Methodist Board Of Public Morals Demands That Firpo Be Deported

Washington, Aug. 6 (INS).—Deportation of Luis Angel Firpo, Argentinian prize fighter, was demanded today by the Board of Temperance, Prohibition and Public Morals of the Methodist Episcopal Church.

"Firpo knows as much about boxing as we do and we have to do it with a hammer and nails," said Deets Pickett, secretary of the board. "He is simply a big husky who isn't a tramp because he doesn't have to be a tramp. There are undoubtedly plenty of men in the penitentiaries of the country who know more about boxing, not to mention many other subjects."

Pickett called attention to the deportation of Miss Bianca Lourdes, who came to New York on the same ship with Firpo a few weeks ago, and declared that "if it is right to admit a male one, it is right to admit a female one."

Firpo's case is now being investigated by the Immigration Bureau of the Department of Labor following a demand made by Canon Chas. of New York for the fighter's deportation.

MYSTERY MAN GETS AWAY WITH WOMAN FOUND IN A PARK

Pittsburgh, Aug. 6 (INS).—Local police are searching today for "John Strauss," the man of mystery, who late yesterday, according to Pittsburgh hospital authorities, "kidnaped" a woman 25, suffering from amnesia, from the hospital.

The man came to the hospital, told hospital authorities his name was John Strauss, that the woman was Mrs. Gertrude Apffel of Wilkensburg, his sister-in-law, signed a release for the woman and took her away in an automobile.

The woman was found yesterday in Highland Park by a policeman in a dazed condition. She spoke coherently at times but could not remember her name or where she lived. The woman said she remembered two lights of an automobile coming together. She was taken to the hospital for observation.

DuBois Republicans Are Active; City Committee Organizes For Campaign

The annual meeting of the Republican City committee of DuBois, held for the purpose of electing officers for the ensuing year, took place last evening. There was a large attendance of the committee men from the various wards and keen interest was manifested in the proceedings. It was a very harmonious meeting, the officers in most instances being selected by acclamation the election resulted as follows:

President—M. O. Skinner.
Vice President—Miss Vina Sweeney.

Secretary—L. C. Sheffer.
Assistant Secretary—L. R. Singer.
Treasurer—Oscar Olson.

In the election for president three nominations were made originally, but Thomas Reay and J. R. Osborn withdrew, making the election of Mr. Skinner unanimous. For vice president, Lulu Kinter withdrew, giving the office to Miss Sweeney by acclamation. There was no opposition to the re-election of Mr. Sheffer for secretary, L. R. Singer for assistant secretary and Oscar Olson for treasurer.

Retiring president, G. A. Lukshart was called upon and made a short address, in which he thanked the committeemen for their cordial support of him during his tenure of office, after which the meeting adjourned. There is plenty of interest manifested in the forthcoming campaign, and some earnest work is going to be done in the way of getting out the vote.

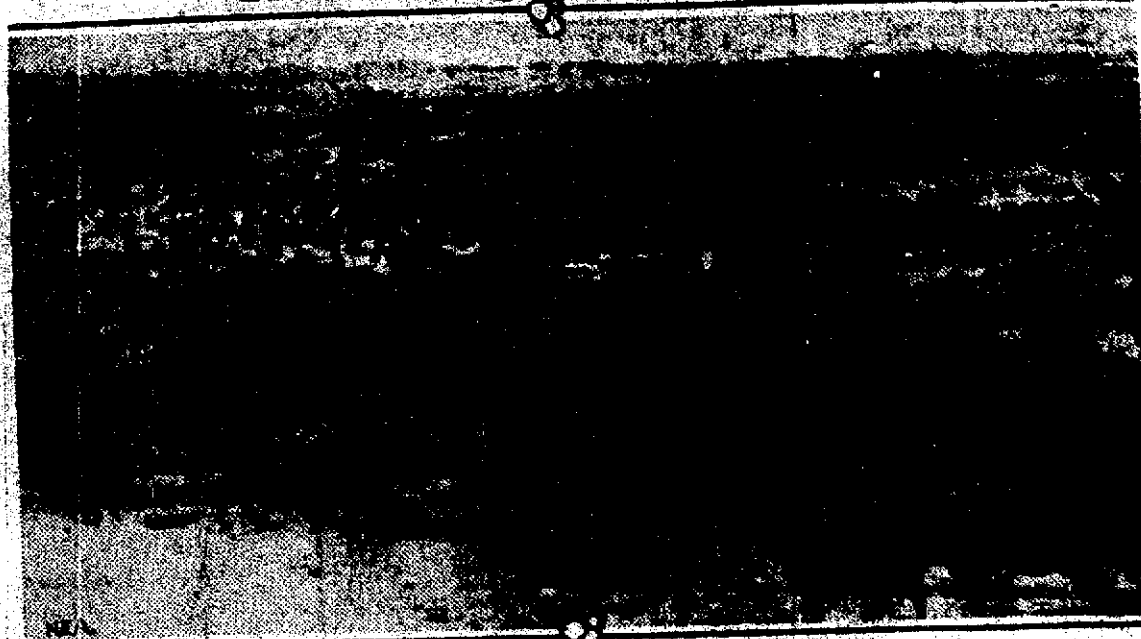

A. K. Wright leaves today for one month at Narragansett Pier, Rhode Island.

Suit of Nails!

In this nail-studded leather suit, Stanley Clarkson of St. Paul fought hand-to-hand encounters with the Berce timber wolves of northern Ontario. While armed only with a double-bladed hand-axe, he was attacked by five of the beasts, killed two of them and drove the others away.

Real Wild West Thrill This!

Condemned to die because the herd had grown too large, 1000 buffaloes were stirred into a stampede so that moving picture men might catch them in action. The condemned animals mauled and milled with a vengeance until shot down by guards at Canadian Government Park, Wainwright, Alberta. The meat and hides brought fancy prices.

FIREMEN PLAN TO GO TO CONVENTION IN ROYAL STYLE

The regular monthly meeting of the Clearfield Fire Department which was held in No. 1 hall last Friday evening was well attended by members of all four companies. A high degree of interest was manifested in the District Firemen's Convention which will be held this year Aug. 20, 21, 22, at Patton.

Most of the firemen will attend the convention on the big day, which is Thursday, August 21. They will have with them our peerless American Legion Band to furnish sweet strains of music in the parade and take a try at first prize in the band concert in the evening.

No ordinary means of transportation will suffice for such an array of musical talent and gallant fire fighters, so arrangements have been completed to have the N. Y. C. run a special train to Patton in order to show the Cambria county mountaineers how to arrive at so important a gathering. A complete schedule for the train will be published later.

Music hath charms, they say, and these, like all other charms, have a price. To the end that the price of taking the band to Patton may be met, the Fire Department will hold a Grand August Festival in Witmer Park, Tuesday evening, Aug. 12, to which the public and all others are invited. (Please bring your pocket-book.)

The band will be there to play some music to assist you in spending your money to help them play some more music which will bring in some more money, we hope; this last being the first prize at the convention.

Tickets have been printed and are being sold by the firemen, so get a large supply, thus helping out both the Fire Department and the band.

TWO MINERS KILLED

Nanty-Glo, Pa., Aug. 6 (INS).—Two miners were crushed to death and 50 others narrowly escaped with their lives when a full of rock here today covered the cars in which they were riding to work.

Mine officials gave the names of the dead men as Stephen Kourousky and John Kosh.

P. P. S. FOLKS PICNIC

The employees of the Penn. Public Service Company for this district are picnicking at beautiful Irvin Park, Curwensville, today. A couple of hundred people are in attendance and all are enjoying the day to the limit.

"Listening In" has a great message. Newsy, interesting, informative.

A QUESTIONABLE RECORD TO HOLD

Munich, Aug. 6 (INS).—Bavaria is taking the world's leadership in the consumption of beer, according to statistics compiled here today.

Every Bavarian drinks from five to ten pints of beer annually.

Heretofore the Hollanders have held the honors, consuming from four to 14 pints each annually.

DUBOIS LAD FALLS INTO STORM SEWER; IS RESCUED AFTER A 75 FOOT JOURNEY

DuBois, Pa., Aug. 5th.—A very peculiar accident and one that almost resulted in the death of a little fourth ward boy occurred yesterday afternoon when Walter Bauer, five year old son of Mr. and Mrs. Eben Bauer, traveled through a storm sewer for a distance of over 75 feet, being rescued at a manhole that distance from the point of entry.

It was an almost miraculous rescue and only the quick thinking of an 18 year old brother of young Bauer made it possible.

There is a 24 inch sewer running from the foot of the Bauer property, 418 Pifer street, to Brady street, and following the heavy rains of yesterday an immense amount of water collected at the foot of the Bauer property and was running into the sewer the current sucking into the pipes being quite strong. It is stated that a plank had drifted across the mouth of the pipe, and that the older Bauer went to remove the plank. The little boy followed him and in some way lost his footing, being sucked into the storm sewer. He disappeared so rapidly that the older boy saw there was no chance for rescuing him at the point of entry. Thinking rapidly, he remembered that there was a sort of manhole on Knarr street, a distance of 75 feet away, where the sewer takes a turn. Running rapidly to this point and summoning help enroute, the heavy flagstone covering of the manhole was thrown aside and the older brother and a man by the name of Cricks got down into the hole, anxiously searching for some trace of the boy. At first none was seen and for a few brief agonizing moments it was believed that the boy had gone past. But suddenly the foot of the youngster was seen, and was caught on the fly. By dint of hard work, the water being about four feet deep at this point and moving rapidly, a firm grip was secured and finally the youngster was pulled to the surface.

The lad was unconscious, and at first it was believed that he was drowned, but first aid work was resorted to until a doctor was secured, and he finally showed signs of life. After working over him for some little time, young Bauer was brought around and it was stated last evening that his condition was very satisfactory and there was every reason to believe that he would fully recover.

In the excitement no one could remember just how long the lad was in the sewer, but it was several minutes, and it would seem almost miraculous that he could come through this experience and still live. It was quick thinking and fine initiative on the part of the older brother that resulted in the rescue.

There was great excitement in the neighborhood and a large crowd quickly gathered on the scene. Since the above was put in type the Courier has been informed that the young man, doing the actual rescuing of the Bauer boy is named Robert Cricks, a resident of the Fourth Ward, who happened to be in the vicinity when the Bauer boy came rushing down and called that his brother was in the sewer. The Cricks youth is but 16 years old, and it required courage of a high order to get down in the sewer at the manhole and effect the rescue.

ELECTRICAL STORM TAKES HEAVY TOLL IN THIS VICINITY

The severe electrical storm which struck this vicinity about 3 o'clock left quite a bit of minor destruction in its wake and was responsible for the shut down of the American Nickel Company's plant today, while it is said a part of the plant will be idle for several days as a result of damage to the electrical equipment of the plant due to the lightning burning out a motor generator.

A bolt of lightning fell on the house of Thomas Johnstonbaugh on Daisy street, near Fourth at the height of the storm. The lightning knocked several bricks out of a chimney, tore a hole through the slate roof and ripped thru the ceiling into an upstairs room, but aside from scattering soot and dirt from the flue through the house did little other damage.

A fire alarm was sent in and the fire ladders made the race to the Johnstonbaugh home in the midst of the downpour of rain, but fortunately their services were not needed when they arrived, as a hasty survey of the upper floors of the house demonstrated.

Shortly after the Johnstonbaugh home was struck a second bolt fell upon the frame dwelling of Antonio Pizzella formerly the John Shade property on Bigler avenue, just beyond Fourth street, and but a couple of hundred yards distant from the Johnstonbaugh home. The roof of this house was also slightly damaged.

The farm home of A. A. Ardary, located in Lawrence township, about one mile this side of Glen Richey, was struck by lightning during the storm and considerable damage was done.

A Little Hero

When danger swept the storm home in Washington, this boy crawled under the burning building to rescue the pet rabbit he's holding in his arms. Forty children were left homeless by the fire. Only a cat, two rabbits and a dog were saved from the ruins.

EAST END RESIDENT ATTEMPTS SUICIDE BY SHOOTING SELF

Frank Pasquariello, the Father of 8 Children, Says He Was Tired of Life; Shots Fail to Kill.

NOW AT HOSPITAL

Frank Pasquariello, about 45 years of age, and an industrious East End resident for many years, got tired of living last evening and decided to shuffle off this mortal coil by the revolver route. He secured a .32-caliber revolver and took two shots at himself but his head was evidently made out of good "solid wood" and the bullets did not do much more than flatten themselves up against the side of Pasquariello's cranium, although they did, or one of them at least, inflict a painful injury.

No reason can be advanced by Pasquariello or his family for the man's suicidal attempt, except his own statement that he was "tired living and thought he would end it all." It is thought the man was affected by the heat.

Pasquariello, who is employed at the New York Central car shops, is the father of eight children and lives with his family at No. 408 Daisy street. He was sitting chatting with his frightened wife rushed to his side o'clock, when he got up from his chair and, going into another room, secured a revolver and placing the muzzle against the side of his head near the right ear pulled the trigger. With the report of the pistol Pasquariello shouted loudly, "Me shot myself." As his frightened wife rushed to his side another shot rang out and Pasquariello again said, "Me shot myself."

Jim Spingola was at his home directly across Daisy street and hearing the shots and the injured man's cries, he ran over to the Pasquariello home. He found Pasquariello bleeding profusely from a bullet wound in the side of the head in front of the right ear, and with the assistance of other neighbors attracted to the scene located the would-be suicide into his car and hurried him to the Clearfield hospital, where Dr. Woolridge took him in charge.

Pasquariello was conscious when he arrived at the hospital. The doctor could find where but one shot had taken effect. When questioned at the hospital as to why he had attempted to kill himself Pasquariello said he was tired living.

Jump To Greenland Is Delayed Owing To Bad Weather Conditions

Reykjavik, Iceland, Aug. 6 (INS).—Lieut. Lowell Smith and Lieut. Erik Nelson, American army world girdling aviators, who arrived yesterday afternoon from Hofslof Hornsford, rested up today none the worse for their daring 300 mile journey through a 40 to 60-mile gale.

Examination of the planes in the harbor showed that they were in excellent condition. They weathered the storm without a defect.

It is not certain when the remaining two aviators will undertake their flight from Iceland to Greenland, owing to ice conditions off the Greenland coast.

The American flyers are guests of the municipality. They are quartered outside the town.

A wireless despatch from the Danish steamship Gertrude Rask, said she had arrived at Angmagalik, originally selected as the first stopping place of the Americans on the Greenland coast.

According to the Danish ship ice conditions have improved somewhat off the port of Angmagalik. There is still a heavy ice lying in front of Angmagalik which made it extremely difficult for the sturdy Danish vessel to reach the harbor.

American officers are conferring as to when Smith and Nelson shall undertake the next hop. American war craft are taking up stations along the next leg of the route to report weather conditions.

ODDS AND ENDS AND THINGS

By J. D. C.

President Judge A. R. Chase, of Clearfield county, is not only an able jurist, but is both resourceful and long-headed, as we regard that term in these parts. Monday morning Steward Bowman of the County Home, was hustling rapidly through the Court House corridor on the way to his waiting car for a trip back to the home farm after attending to a business call from the County Commissioners' office.

Judge Chase came down the steps from the judicial chamber as the steward came bustling along. "What's the hurry, Tom, where are you bound for in such a rush?" queried the Judge. "Back to my harvest field, Judge," replied the steward; "we are up to our necks in harvest, can't get labor to help garner our crops, and I had to lose two whole hours this morning coming in to fix up some business matters at the office here."

"How many men do you need right now to help get that harvest in, Steward?" the Judge's next query. "Could use five, if I could get them, but would be glad to get even one," was the rejoinder of the steward.

With that Judge Chase informed Steward Bowman that he thought he could get him the required harvest hands. "He then asked the hard-pressed farmer to accompany him to the County Jail. They soon reached the jail and when Warden McClure let them inside, His Honor told the Warden to look up his jail records and pick out five husky prisoners, preferably farmers. The Warden did so and was invited to bring the five farmers out of the jail proper into the corridor.

When the five prisoners faced the Judge he noted that all were men and sentenced them all for bootlegging and all had a fine time to settle the matter for themselves. "Regarding their property," he then said, "Boys, I have a proposition to make to you; we are very short of harvest hands at the County Home Farm and can't get any. I promised Steward Bowman to get him some harvest hands. You fellows all have had experience as farmers and were brought out here because of that fact. If you are willing to go out to the County Home Farm and give us your best efforts in the harvest fields until harvesting time Steward Bowman will feed you well, allow you the prevailing wage per day as farm hands and the money you earn will be paid toward the payment of your fine and costs. Are you willing to take the job?"

Needless to add, every last one of the prisoners jumped at the chance and were on their way to the farm in a very few minutes. Steward Bowman says he never saw a better crew in a harvest field than this bootlegger crew.

When the news of the good fortune of the five "farmers" got about the town, no less than thirty of the remaining thirty-five prisoners expressed their willingness to take a harvesting job under similar circumstances.

Mr. Ella Shaw, who finds time to

look after a fair-sized flock of chickens at her home, corner Market and Front Streets, has a pair of pure-bred Buff Plymouth Rock pullets which were hatched out on March 4th, 1924, each of which laid its first egg on Monday, or at the age of 4 months to the day. That is surely a record-breaking performance.

Some outlaw up in the Berwinstale country shot a fine 2-prong buck one day last week. The animal got away from the killer and jumping the fence into a field where a man was harvesting gave up its life. Constable Thomas was notified and took possession of the deer, which had been shot through the stomach. He sent the animal to the Children's Home here, but the meat was spoiled when it arrived and the carcass was turned over to the Clearfield Taxidermy Shop where it will be mounted. As the horns are in "the velvet" it will be a unique specimen.

We want you to read "Listening In" on the back page tonight.

Hon. Theodore E. Burton Sounds Death Knell Of Plan To Cancel War Debt

Williamstown, Mass., August 5. (INS)—Foreign debts owing to the United States will not be cancelled and there is no desire on the part of the American people that they should be cancelled.

This was the gist of a letter from Theodore E. Burton, member of the United States Debt Funding Commission, read today before members of the Institute of Politics in session here.

"The sentiment of the people is overwhelmingly against release of the so-called foreign debts," Burton wrote, adding that votes in Congress and expressions of opinion in the press and otherwise had indicated this sentiment. Burton said cancellation would not be fair or just because it would "create not merely confusion and distrust, but 'would seriously impair future transactions and future development.' The letter further pointed out that the advances were made from borrow-

ings by the government from the people and that America's tax rate was "quite as great if not greater than in the countries of Europe whose obligations we hold."

Burton, in closing his letter said he could not too strongly emphasize "the fact that the only effective means to provide for payment of debts and the healing of economic life of nations must depend upon progressive disarmament and the maintenance of peace."

Mr. and Mrs. E. J. Turner and daughter, Pauline; Mrs. Beatrice Richards and little son, Chester; Mr. and Mrs. Charles Cowdick and son, Charles, Jr.; all spent Sunday with relatives in Lock Haven.

Mrs. Edith Hipps of the Hipps-Thompson Specialty Shop is in New York on a business trip in connection with the store.

FOR SKIN TORTURES

Zemo, the Clean, Antiseptic Liquid, just What You Need

Don't worry about Eczema or other skin troubles. You can have a clear, healthy skin by using Zemo obtained at any drug store for 35c, or extra large bottle at \$1.00.

Zemo generally removes Pimples, Blackheads, Blisters, Eczema and Ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating antiseptic liquid. It is easily applied and costs a mere trifle for each application. It is always dependable. Zemo Soap, 25c—Zemo Ointment, 50c.

How to build up your Weight

To be under weight often proves low fighting-power in the body. It often means you are minus nerve-power, minus red-cells in your blood, minus health, minus vitality.

It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus.

That's why S. S. S., since 1826, has meant to thousands of underweight men and women, a plus in their strength. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will build them.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

LEITZINGER BROS.

The Principle Is Right

The EASY Vacuum Electric WASHER

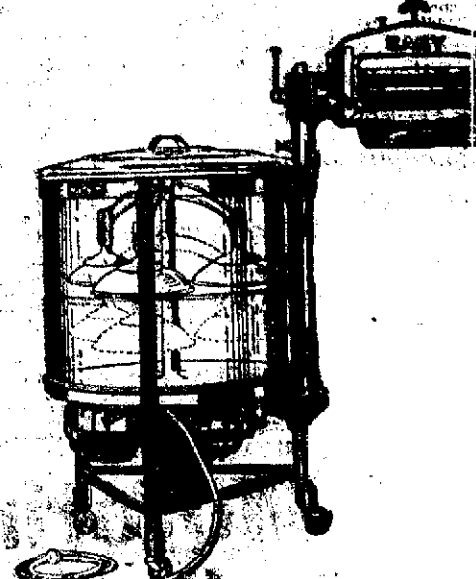

Is the result of 45 years' conscientious development of a basic idea, fundamentally right, namely, the use of the air pressure and suction principle in washing clothes.

In Grandmother's day, the housewives all knew that the "metal cone on the end of the stick" would wash clothes quicker, cleaner and with less wear and tear than by the use of the rub-board. So it has been up to the present time. The modern way to wash clothes is expressed in the fully developed "EASY" Washing Machine. Sturdy, clean cut, bright and sanitary, the "EASY" awaits the touch of a button to do your bidding.

You owe it to your own future happiness and health to make it a point to have us explain this labor-saver to you.

The "EASY" VACUUM-ELECTRIC WASHER with solid copper tank, swinging aluminum wringer and gas water heater, is \$155.00.

EXTENDED PAYMENTS
Pleasingly Arranged

The "EASY" capacity tank is made of solid heavy gauge copper, highly polished outside and especially finished on the inside to prevent discoloring. It is absolutely sanitary and easily cleaned. From the instant safety release on top of the wringer to the sturdy "three-point support" easy rolling casters wheels, "EASY" VACUUM-ELECTRIC WASHER is everything that the careful housewife would ask in a washer.

SIMPLE PSYCHOLOGY

It is a relief to find, from the news accounts of a Chicago murder trial, that a certain alienist, testifying on the witness stand for a whole day, "never used a technical term." He is said to have talked simply and clearly about the mental condition and history of the defendants, just as any clear-headed and plain-spoken business man might be expected to talk of some interesting phase of his own business.

Alienists have earned considerable disrepute, largely because of the terrific jargon they use. Yet they are concerned with a highly important branch of human knowledge, and are often making valuable contributions to it even while their hearers and readers are unable to follow what they say.

There is no science more important for people in general to understand than the science of the human mind. Most of us are concerned mightily with getting ideas and feelings into our minds and out of them into other people's minds, while having but the dimmest notion how any of our minds really work, and what is the best way to use them.

"Normal psychology" ought to be a familiar study. "Abnormal psychology", which deals with unusual and diseased workings of the human mind, should be known far better than it is, in order to understand peculiar people and know how to deal with them in the ordinary affairs of life or in cases of extraordinary behavior. All this would be made much easier if psychologists generally would follow the example of the professional witness referred to.

Psychology never has been necessarily difficult. William James, the biggest of American psychologists, nearly always expressed himself clearly and simply.

WHAT AFTER FIFTY?

A writer in The Christian Century inquires how a successful man should spend his life after the age of 50, and asks such pertinent questions as these:

"Should such a man largely and increasingly give of his time to the cultivation of his own physical, mental and spiritual well-being and that of his family? Should he also give largely of time and money to organizations for the betterment of society and in furthering personally other religious work? Is it wise for a man of fifty, during his remaining years, to gradually sell out his business to employees of tested ability and thus give them greater opportunity for service and reward? After providing reasonably by will for wife and dependents, should such a man aim, while yet living, to administer and distribute the bulk of his estate for God and humanity, rather than leave his means to expectant heirs, or even to his adult children?"

The plain implication is that in the case of an elderly man who has been successful in material things, his wife and children probably need him more than they need his estate. Why, then, go ahead and accumulate more property?

John H. Clarke, late justice of the United States Supreme Court, attracted wide comment by retiring in order, as he explained, to be free to perform certain public services he had in mind and "to become acquainted with his own soul." He was past 60 and had no family.

Fifty is not "old", any more, as it used to be. Youth and middle age last longer. But surely there is no special merit for any man, especially a well-to-do man with a family, in plodding on and "dying in the harness", instead of starting, before old age comes, to relax, broaden and humanize his activities, to cultivate family and friends and books and fine living generally, and do at his leisure things long desired but impossible because of the daily grind.

The Trust Department

The advantages of naming a financial institution instead of an individual as executor of your will are many.

Your trusted friend may lack the experience or ability to properly safeguard your estate. The Bank's Trust Department is organized to handle such matters and is equipped to take care of them wisely.

An individual may not be able to give the time from his own business to look after the affairs of your estate.

Your friend named as executor may be swayed by sentiment.

The bank's position in such matters is always disinterested. Its only business is to see that your estate is managed according to the terms of the will.

When you make your will name as executor an institution which is in that business.

This bank's trust department is experienced and capable.

Progress Editorials for Women

WE BEG TO DIFFER

By FLORENCE DAVIES

Ida Clyde Clark, contributing editor of Pictorial Review, internationally famous as a protagonist of world peace, and incidentally one of the most brilliant platform speakers in the country, has made a wholesome discovery.

She counted up what women's club conventions cost, and announced that this old wheeze, that women haven't the money, is all the bunk.

Women, says Ida Clyde Clark, have plenty of money and they know how to spend it when they want to. The amount that women spend on club luncheons and club conventions in one year, would make any national party presidential campaign fund look sick.

That just goes to prove that if it's money that's needed to put a thing over the women either have the money or know where to get it.

But Mrs. Clark draws a conclusion from this discovery which we respectfully question. She says that if half the money that was spent by women for luncheons and conventions was applied to a few of the causes in which they are interested, more would be accomplished.

Yes, and no. We admit that half of the money spent by the several thousand delegates who attended such a great convention as that held by club women of America at Los Angeles recently, would finance some world-wide movement.

We admit that in almost every such logic

thering, there is much lost motion, much that is trivial, much that is purely entertaining, aimlessly controversial or insignificant. We admit that most of the real business is done in committee, that practically nothing of importance is accomplished on the floor of the convention, and that most real thinking is done by twos and threes and not by hundreds and thousands.

But in spite of all this, we respectfully suggest that Mrs. Clark, one of the keenest minded, most stimulating, most inspiring women in the whole women's movement, is mistaken.

The getting together is worth while. It is a great, world-wide gesture, an expression of something intangible but nevertheless real, a dramatic and definite, though doubtless unwieldy, method of expressing a very real and very precious thing. It helps to create that great body of enthusiasm, or mutual belief in the power of women to get together and act. It helps to make of the nation, even of the world, a great community, it crystallizes a vast neighborhood spirit.

Yes, it is worth while, even though the meetings themselves offer a good deal of eloquence that gets nowhere in particular; even though, alas, there are many little shameful bickerings, too much petty politics, small jealousies and unfairness. These are pin pricks. The great, intangible will toward mutual understanding remains. It's just one more seemingly illogical thing which, like sentiment, like love, remains in the end, the only lasting

Rat Fur
Wrap

WHAT'S in a name? Common palm tree rat of the Cucosus called "harunduk" by great French dressmaker Jean Patou and made into a charming summer fur wrap trimmed with red fox

When the water is so hard it scratches the bath tub—use Blue Devil.

Broke His Vow

"After trying all remedies and doctors for stomach trouble for eight long years I decided I couldn't be helped and swore I would never take another dose of any kind of medicine, but when I saw what Mayr's Wonderful Remedy did for a friend who also suffered from bloating as I did, I concluded to try it myself. It helped me at once." It is a simple, harmless preparation that removes catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince of money refunded.

At all Druggists.

Jeannette, Pa.—Chas. Faull, 21, died at the hospital here today from a fractured skull received when an automobile in which he was riding turned turtle near here late last night and Faull was pinned under the car. Faull and William Evans were on their way to Butler Mills, near here, when the car skidded, left the road and turned over, pinning Faull under it. Evans was slightly injured.

Farrell, Pa.—A double funeral will be held at Yulaska, near here, tomorrow for Mrs. Irene R. Heie, 21, and her sister, P. Heie Haggerty, 14, who were drowned while bathing in the Allegheny river, when they stepped beyond their depth.

Another sister, Loretta, nine years old, ran for help to save the drowning girls, but could not summon anyone in time to save them.

Pointed Remarks

A fussy old woman inquired in a druggist's the price of brimstone. Upon being informed, she replied that she knew where she could get it cheaper. "If it's cheaper you want," replied the clerk, "and I wasn't afraid of getting fired, I could soon tell you where you could get it for nothing!"

\$2500 Secures This
Modern Home

Situated on Leavy Avenue in the Home Builders' Plot. House is of frame construction, with living room, dining room and kitchen downstairs, three bedrooms and bath on second floor with roomy attic on third floor. Foundation is of stone with cemented cellar and sidewalls. Electric fixtures are modern in every respect. House is painted a cream color with golden brown trimming. Wide roomy porch in front as shown in picture.

Lot is graded ready for grass seed. Has concrete walks in front and leading to rear door. Young shade in front. Lot is 50 by 89 feet.

A payment of \$2500 secures this home and the balance may be paid as rent.

J. C. SNYDER—Jewelry Store

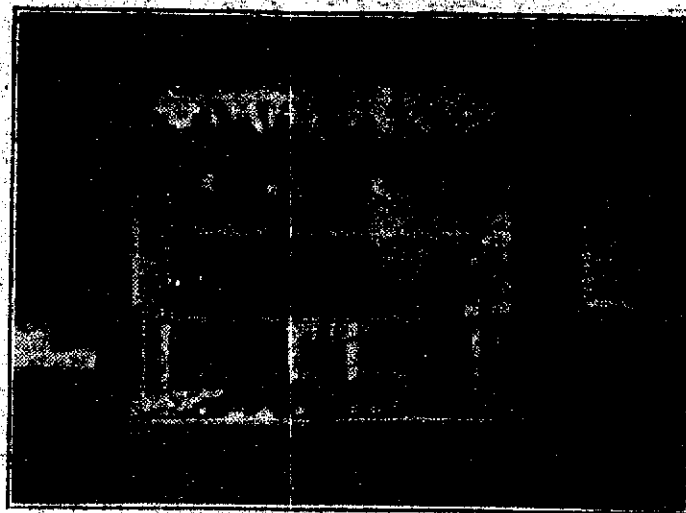

Located on the busiest corner of the city, this jewelry store is the mecca for all the folks who wish to make a purchase of the things one expects to find in this kind of a store.

You can find here most all the nationally advertised articles for home and personal adornment. You can find here the most beautiful of cut glass and silverware for your home table. You will always find a charming array of jewelry for your personal adornment.

And then, many of the real practical things, you need about your house such as a reliable clock, we feature BIG BEN for getting you up in the mornings.

One of the things in which we excell and in which we always take pleasure in showing, is our wide and varied stock of diamonds, mounted and unmounted.

It will pay you to make a visit here.

A CITY OF UP-TO-DATE STORES WHERE

YOU GET THE MOST FOR YOUR MONEY!

The Progressive Business Firms whose ads. appear on this page have combined in presenting a series of articles designed to show the most skeptical of persons that it is to their best advantage at all times to Trade in Clearfield. All of the firms here represented have your interests at heart as well as their own and we sincerely hope these articles may be the means of a better understanding between the merchants and the public.

Why It Will

Pay You To

Trade In Clearfield

The man you don't like is the man you don't know.

Abraham Lincoln once said that he didn't know very much about theories concerning trade, but he did know that when America bought a ton of steel in England for twenty dollars, America had the steel and England had the \$20.00, but when an American Firm bought a ton of steel from an American manufacturer, America had the steel and also the twenty dollars.

Clearfield is the center of this community and a vital part of it. Every family living in Clearfield or within the trade radius of Clearfield has a financial interest in its prosperity and growth. Of course, no fair minded man would say that you should spend your money in Clearfield unless you were getting honest values, and unless it is better business for you to make the purchase here than elsewhere. In deciding this there are many things for you to consider. It is the custom of all mail order establishments to advertise certain leaders. Items of such worth that the apparent value is obvious. Items of such worth that the apparent value is obvious. It is the same old deal as forty pounds of sugar for a dollar provided you buy a certain amount of other merchandise of unknown and doubtful value. But when you buy of your neighbor who is maintaining a mercantile establishment in Clearfield you know that you are receiving a service that no foreign corporation can possibly give, and you also know that that man has his home and all his money invested in your community and that he cannot possibly afford to defraud you. The reason he cannot is simply this: There are only so many thousand people who can possibly transact their business in Clearfield and no merchant can hope to succeed unless he wins the repeated orders, or in other words the regular trade of a considerable portion of these permanent residents. If he undertakes to skin them then he will get once round mighty quickly and it is an expensive job to move out of a community where you have been in business for years.

It will pay you to establish real human relations as well as business relations with the good fellows who are located in your town because after all, this is your town quite as much as any one else. You are always welcome and every merchant in Clearfield is ready to go down in his pocket and help pay for anything that will make your stay here more pleasant; of course having in mind that if you like the town, you will bring your family to its markets and thus add to its prosperity and development.

When we begin talking about the town and the country and always think of it as Our Community, then we will begin to work together in earnest for a Bigger and Better City.

And when you know the Grocer as "Bill" and he calls you "John" and you serve together on committees, the question of where your trade goes will be automatically solved.

There are thousands of good reasons for keeping our money in Clearfield but the only reason that will keep it here is because you like to do business with the merchants of Clearfield.

They want your trade and they are trying to give a dollars worth of service for one hundred cents. Lets get together and make everybody that finds out about us sorry that they don't live here.

BASEBALL DOPE

The terrnical electrical storms which struck this section yesterday afternoon about 3 o'clock put a crimp in both C. & C. League games. Philipsburg was scheduled to play Clearfield at the Park here and both teams were at practise when the deluge came. The Rum-Dubs were on the bills for a game at Osceola, but it, too, was knocked "galley west" by the storm.

The Osceola team will meet Clearfield at the Clearfield Park tomorrow afternoon. The game will start at 2 o'clock instead of 3:30. Don't forget this fact. The early starting hour is made necessary because of Sunday School Field Day at Irvin Park at Curwensville. Rev. Shaulis and another local player or two are due to play baseball at Irvin Park later in the evening and the time of the league game has been shot ahead one hour and a half to accommodate them and also allow a lot of our baseball fans an opportunity to take in the Field Day program, which is indeed worth while.

The Clearfield team is going at top speed right now, and the fans should appreciate that fact and show their appreciation by attending the game tomorrow afternoon, and all the games for that matter.

Those Hillsdale Terrors, who have been walloping tough-shod over all the other teams in this region, sort of "got their combs out" in a twilight game with Manager Teats' Reedsville Pirates. The Pirates skinned the Terrors 2 to 1, and are a unit in saying they can do it again any time. The game was played at Reedsville and the

John Errigo and children of Punxsutawney, spent the week end here with relatives and friends.

Hillsdale management are said to attribute their defeat to the "low visibility" at the foot of the hill, and to the further fact that Grandpap Dewey had mislaid his rule book and they were not sure whether or not the licking had been given them as the rules provide.

A Cordial Invitation

You and your friends are cordially invited to attend the Opening of the beautiful new banking home of the Curwensville State Bank, which will open for business Saturday, August 9th, 1924.

You are welcome at any time to call and inspect this building, which is one of the most complete modern and up-to-date institutions in this section of the country, yet Saturday, August 9th, has been especially set aside as "Open House for visitors."

The many convenient and complete features of the bank will be shown and explained by the officers, directors and employees, and especially interesting to visitors will be the massive vault which is the last word in vault construction.

In order to give everyone an opportunity to view our banking quarters the bank will remain open during the evening of Opening Day.

REMEMBER—NO OTHER INVITATION IS NEEDED. We expect you and your friends at our Opening.

JORDAN'S

Gossip for Tonight's Tea Table

Mr. and Mrs. Eldon Read and son Kenneth and Mrs. Read's father and mother, Mr. and Mrs. John Hughes and nephew, John, have returned from a week's motor tour, stopping at Franklin, Tarentum, Pittsburgh, Harrisburg and Williamsport to visit relatives. On their return from Pittsburgh they stopped at Gettysburg and visited the battle field while there.

Graydon Thorn arrived home from a hiking trip from Cincinnati, Ohio. He left there on Friday morning and arrived home on Sunday night, having walked but ten or twelve miles. He not only was given "lifts" by motorists but they all insisted upon treating him as their guest, treating him most cordially.

Mrs. George DeHaas and son Paul of Philadelphia, are visiting Mrs. DeHaas' sister, Mrs. George Thurston, and her mother, Mrs. M. J. Norris, of Keokuk.

Mrs. Harry Dukeman, of Bellefonte is a patient at the Clearfield hospital.

Miss Ninevah Kirk, of Tyrone, is visiting Miss Clara Davis. Miss Davis entertained in her honor on last Friday evening.

Howard Murphy and two daughters of Johnstown are visiting at the home of Mrs. Murphy's brother, C. M. Murphy.

Prof. Chas. Rockwell, of Phillipsburg, was in town yesterday looking up old friends.

Miss Meriam Smith of Bellefonte, is visiting at the home of her uncle, J. H. Martin on Ogden avenue.

Charlotte Zerfoss was given a delightful surprise party at the home of E. D. Vandling. Every one had an excellent time and enjoyed the surprise as much as Charlotte did.

Chas. S. Strong, a prominent merchant of Ansonville, was in town on a business trip on Tuesday.

Julian Crozier, of Norwich, Conn., one of the original promoters of the Textile Works, is visiting at L. P. Gaynet's home on Turnpike avenue. Mr. Crozier spends his time between the works in Clearfield, Norwich and in France.

Mrs. F. B. Kerr and Mrs. Hazard Murray are giving a luncheon today at the Country Club in honor of their sister, Mrs. Robert Youngman, of Pittsburgh.

Mr. and Mrs. B. K. Stewart and children arrived last evening from Birmingham to spend the night with Rev. and Mrs. N. B. Smith on Turnpike avenue. Today they expect to leave to drive to Columbia county and Pottstown taking Mrs. Smith with them. They will get Miss Mida Smith at Pottstown and from there they will visit Gettysburg battle field.

Miss Jean Thurston returned Monday evening from a visit with friends in Snow Shoe.

Kathryn Yeany arrived at home after a delightful month of camping in the Pocono mountains.

Mr. and Mrs. P. W. Spiches and family of Indiana, spent the week end at the home of Mr. and Mrs. C. B. Hollenper on Ogden avenue. Mrs. Spiches is a sister of Mr. Hollenper.

Dr. and Mrs. Fitzgerald and daughter Louise, of South Fork, have been visiting at the home of E. K. Moore. Miss Louise was a student at Virginia College, Roanoke, and was a school mate of Kathryn Moore and Virginia DeHaas.

FLIT

The Vermin Killer
You should try Flit when everything else has failed to rid your premises of all kinds of vermin. It is in the form of a liquid and sprayed into the places where the vermin breed, it will not only kill the live bugs but will destroy the eggs as well.

THE YELLOW (GOLD) DOGS TO INVADE NEW MILLPORT FRILEVE.

Prof. Grant Norris, at the last meeting, gave the true meaning of the Yellow Dogs. He says that every true Yellow Dog is ALL GOLD, and the only way he can get out of the organization, once in, is to act as the world knows a yellow dog to act. This Transcendental Organization is now busy making its plans for Labor Day at Curwensville, September 1st. This organization has proved its right to exist and has already made a commendable addition to Irvin Park, Curwensville, by erecting a splendid auditorium, 100 by 50 feet, with a good platform for speakers and band concerts, and a floor that is already tickling the toes, not only of the young people of this vicinity, but of some of the old timers who used to dance at corn huskings and apple butter parties all over the central parts of Clearfield county.

The next big meeting of the Yellow Dogs will be held at New Millport, the town that the chief cur can never forget when he has anything to say, on Friday evening of this week, August 8th. It is expected that at least 100 automobiles will be in New Millport on Thursday night of this week. Burgess K. A. Sloppy is making every preparation to receive this large gathering of Yellow Dogs.

We understand that a large Yellow Dog meeting is scheduled for Irvin Park, in the K9Kannel, for Tuesday evening, August 12th. Already over 108 applications have been received for initiation, so this promises to be a very large night. Be sure to have your collar and license tag on for the 12th of August.

The official emblem of the Yellow Dogs will be mailed out this week. It is expected that every Yellow Dog will wear his emblem at all stated meetings in the future. August 19th is also scheduled for a meeting of the Dogs at Irvin Park, and August 28th. We are glad to have these dates, and now no one needs to grieve over not knowing about the meetings.

August 25th is scheduled for the big opening dance at Irvin Park. The organization is paying \$180.00 for an orchestra for this night. It is gratifying to know that Irvin Park is free to everybody. The only reason there is an Irvin Park is that men, women, and children may have a delightful place to go and spend a day of recreation. If you want the Park for a day, call up Mr. Ashley Bloom, chairman of the Park Committee, and arrange your date. People from far and near are making good use of this beautiful Park, Curwensville certainly is generous.

Note: We have looked over all the maps we have and cannot find Grant Norris's big town, New Millport, but we are determined to find out and be there. We are told that we must go to Olanta and then drive up Little Clearfield Creek until we come to a very sharp turn and stop.—Editor.

Mrs. Annie Connelly who was called to Elyria, Ohio, last week on account of the serious illness of her daughter, Mrs. James Elemen, returned home last evening and reports Mrs. Elemen much improved. She also visited her son John and daughter Mrs. W. A. Managan at Detroit, while away.

Mr. and Mrs. M. P. McDonald returned to their home on Cherry street Monday evening after spending several weeks with their son James and daughter Mrs. Lawrence DeFerie, in Detroit.

Subscribe for The Progress.

A TEST OF YEARS

Is the Experience of This Clearfield Resident.

Are you miserable with an aching back? Feel tired, nervous and run down? Do you have daily headaches, dizzy spells and annoying urinary disorders? Then why not take the advice of a Clearfield resident who suffered as you do and found lasting relief by using Doan's Pills—a stimulant diuretic to the kidneys? Here is a Clearfield case that the years haven't changed. Why not profit by it?

Lewis E. Wise, prop. restaurant, 2 Nichols St., residence 404 River St., gave the following statement February 17, 1917:

"I was taken with pain in my back. I couldn't bend over and I had pains in my limbs, too. I used Doan's Pills and the pains and lameness in my back left."

On September 17, 1923, Mr. Wise said: "The cure Doan's made for me has lasted."

RAILROAD OFFICIALS HERE

Division Supt. Howard Scott of the New York Central Railroad Company, with a retinue of subordinate officials of the company, visited Clearfield yesterday on business concerning their railroad.

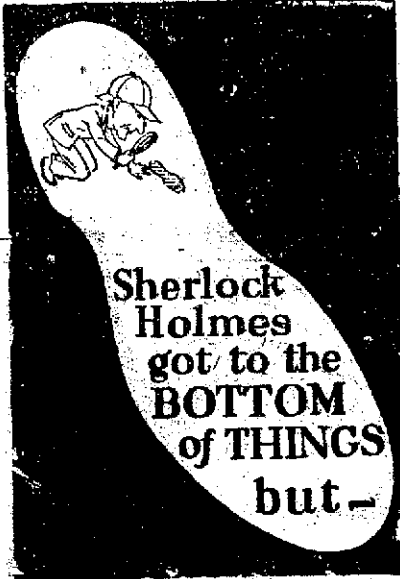

PESKY BED-BUGS

(Pesky Devils Quietest) P. D. Q. is the new chemical that puts the pestering bedbugs, roaches, fleas, ants and moths—impossible for the pesky devils to exist where P. D. Q. is used.

Recommendations of Hotels, Hospitals, Railroad Companies and other public institutions are a guarantee to the public that the safest, quietest and most economical way of ridding the pesky insects is by the use of P. D. Q., as this chemical kills the eggs as well as the live ones, and will not injure the clothing.

A 25c package makes a full quart, enough to kill a million bedbugs, roaches, moths or cockroaches—and also contains a patent sprout to get the eggs nests in the hard-to-spray places and saves juice. P. D. Q. can also be purchased in sealed bottles, double strength, 50c and 1.00.

Sold by Stewart Drug Company and all leading druggists.

Killing Flies Important Now

Now is the season of the year when you should pay particular attention to ridding your house of the flies and we want you to know that we have everything here to aid you in your fight against these pests.

W. B. WILSON TRIES IN VAIN TO SWING A.F.L. TO MR. DAVIS

By KENNETH CLARK
I. N. S. Staff Correspondent
Atlantic City, N. J., Aug. 6.—John W. Davis and the Democratic platform today drew a scathing fire from the American Federation of Labor. The executive council of the federation, meeting here behind guarded doors, preparing a denunciatory reply to overtures from Democratic leaders who urged that the Federation's endorsement of Presidential candidates be delayed until after the Davis acceptance speech in Clearfield, Pa., next week.

Samuel Gompers, aged President of the Federation, drafted the reply. It was directed to William B. Wilson, former Democratic Secretary of labor, one of Gompers' friends and a worker in labor union movements. Wilson previously sent a communication to Gompers asking opportunity to present the Democratic labor stand and Davis' labor record, to the Federation.

Labor chiefs today charged that Wilson's message was forwarded upon the solicitation of Davis himself.

Wilson's communication, however, reached the Federation after the council had endorsed LaFollette and Wheeler.

Council members said today that not even a suggestion was made to accede to the Democrats' wishes.

Nothing that Davis may say in Clearfield can alter the Federation's course in the Presidential campaign, Gompers' spokesmen declared today. This was pointed out strongly in the reply together with the statement that not only are Davis and Bryan "unacceptable to labor" but that the Democratic platform, particularly in relation to legislation regulating the hours and conditions of work and "play into the hands of labor's enemies."

Lieut. Wade To Be Given Another Plane In Which To Return To The U.S.A.

Washington, Aug. 6 (INS).—Lieut. Leigh Wade, the American round the world flyer, who was forced down between Scotland and Iceland, will be given another airplane at Pictou, Nova Scotia, to accompany Lieut. Smith and Nelson into the United States on their return it was announced at the War Department today.

Secretary of War Weeks authorized the assembling of a cruising airplane at Langley Field, Va., to be sent to Nova Scotia, for Wade, whose original plane was wrecked.

When the plane is assembled it will be flown to Nova Scotia by Lieut. George McDonald, of the air service, who will make stops at Keyport, N. J. and Boston.

He will arrive at Pictou Harbor a few hours before the arrival of the American aviators from Labrador.

WALTON BEHIND IN OKLAHOMA ELECTION

Oklahoma City, Okla., Aug. 6 (INS).—Congressman E. B. Howard, of Tulsa, endorsed by the Ku Klux Klan, was maintaining a lead of 3,668 votes early today over former Governor J. C. Walton, avowed Klan enemy, in the race for the Democratic nomination for the United States Senate.

NEW YORK SWELTERS IN HEAT WAVE

New York, Aug. 6 (INS).—New York sweltered today in the first real heat wave of the season.

At 11 a. m., the mercury was at 85 and crawling toward 90.

The weather man promised relief, saying thundershowers were in sight for this afternoon.

Millions slept in the parks, on roofs and on the beaches last night. It was estimated 25,000 slept at Coney Island.

60-YEAR-OLD COUPLE FLY FROM DETROIT TO McKEESPORT

McKeesport, Aug. 6 (INS).—Mr. and Mrs. Richard T. Butler, both more than 60 years old, are home here today telling their friends of their wonderful air trip from Detroit, where they were visiting, to Bridgeville, Pa., near here. The aged couple flew from the Michigan town in an all-metal passenger airplane piloted by Eddie Stinson. This is the second air trip the Butlers have taken.

PENNSY-GRAMS

Pittsburgh—Cooler weather was predicted by the weather man today that will bring relief after Pittsburgh experienced the hottest day of the summer, yesterday causing two deaths and much suffering. It was 93 degrees officially but on the street levels the thermometers hovered around 98 degrees.

Eric—Delegates from Meadville, New Castle, Jamestown and Clarion are attending the sixth annual session of the Erie conference of the Epworth League of the Methodist church at Allegheny College. More than 250 delegates are in attendance.

New Castle—Tomorrow will be the last day of the 125th anniversary celebration of the Founding of the Pine Grove Presbyterian church. The celebration started Sunday last.

Pittsburgh—Only 8 contagious diseases were reported in the last 24 hours by the Pittsburgh Health Department divided as follows:

- Smallpox, 2.
- Scarlet Fever, 1.
- Whooping Cough, 2.
- Chicken Pox, 3.

Philadelphia—Slowly the veil seems to be lifting from the mind of Miss Florine Adams, of Germantown, who returned to her home here a victim of amnesia after an absence of five months, during which she worked as a telephone operator in New York under the name of Jane Johnson. Albert Whidden, of Wyncote, gave the tip to her father which led to her discovery, it was learned.

Bethlehem—The driver of the car bearing Pennsylvania license 1, the license number on Gov. Finney's car, has been summoned to appear at a hearing here Friday on a charge of violating the automobile laws. Quinton D. Kendrick, the complainant, charges the auto went through here at an unreasonable rate of speed last Friday. It is not known whether the Governor was in the car.

Philadelphia—A police roundup of "corner loafers and suspicious characters" netted several hundred last night and also aroused a storm of indignation in southwest Philadelphia, where a crowd of women gathered to protest the arrests. They claimed most of those taken were working men, trying to dodge the heat.

Philadelphia—Twelve-year-old Dorothy Walker, of Linfield, near here, was killed last night when her brother backed an automobile over a pitchfork lying on the ground, the prong of which flew up and pierced her brain.

The Methodist Board Of Public Morals Demands That Firpo Be Deported

Washington, Aug. 6 (INS).—Deportation of Luis Angel Firpo, Argentinian prize fighter, was demanded today by the Board of Temperance, Prohibition and Public Morals of the Methodist Episcopal Church.

"Firpo knows as much about boxing as we do and we have to do it with a hammer and nails," said Deets Pickett, secretary of the board. "He is simply a big husky who isn't a tramp because he doesn't have to be a tramp. There are undoubtedly plenty of men in the penitentiaries of the country who know more about boxing, not to mention many other subjects."

Pickett called attention to the deportation of Miss Bianca Lourdes, who came to New York on the same ship with Firpo a few weeks ago, and declared that "if it is right to admit a male one, it is right to admit a female one."

Firpo's case is now being investigated by the Immigration Bureau of the Department of Labor following a demand made by Canon Chas. of New York for the fighter's deportation.

MYSTERY MAN GETS AWAY WITH WOMAN FOUND IN A PARK

Pittsburgh, Aug. 6 (INS).—Local police are searching today for "John Strauss," the man of mystery, who late yesterday, according to Pittsburgh hospital authorities, "kidnaped" a woman 25, suffering from amnesia, from the hospital.

The man came to the hospital, told hospital authorities his name was John Strauss, that the woman was Mrs. Gertrude Apffel of Wilkinsburg, his sister-in-law, signed a release for the woman and took her away in an automobile.

The woman was found yesterday in Highland Park by a policeman in a dazed condition. She spoke coherently at times but could not remember her name or where she lived. The woman said she remembered two lights of an automobile coming together. She was taken to the hospital for observation.

DuBois Republicans Are Active; City Committee Organizes For Campaign

The annual meeting of the Republican City committee of DuBois, held for the purpose of electing officers for the ensuing year, took place last evening. There was a large attendance of the committee men from the various wards and keen interest was manifested in the proceedings. It was a very harmonious meeting, the officers in most instances being selected by acclamation the election resulted as follows:

President—M. O. Skinner.

Vice President—Miss Vina Sweeney.

Secretary—L. C. Sheffer.

Assistant Secretary—L. R. Singer.

Treasurer—Oscar Olson.

In the election for president three nominations were made originally, but Thomas Reay and J. R. Osborn withdrew, making the election of Mr. Skinner unanimous. For vice president, Lulu Kinter withdrew, giving the office to Miss Sweeney by acclamation. There was no opposition to the re-election of Mr. Sheffer for secretary, L. R. Singer for assistant secretary and Oscar Olson for treasurer.

Retiring president, G. A. Lukshart was called upon and made a short address, in which he thanked the committeemen for their cordial support of him during his tenure of office, after which the meeting adjourned. There is plenty of interest manifested in the forthcoming campaign, and some earnest work is going to be done in the way of getting out the vote.

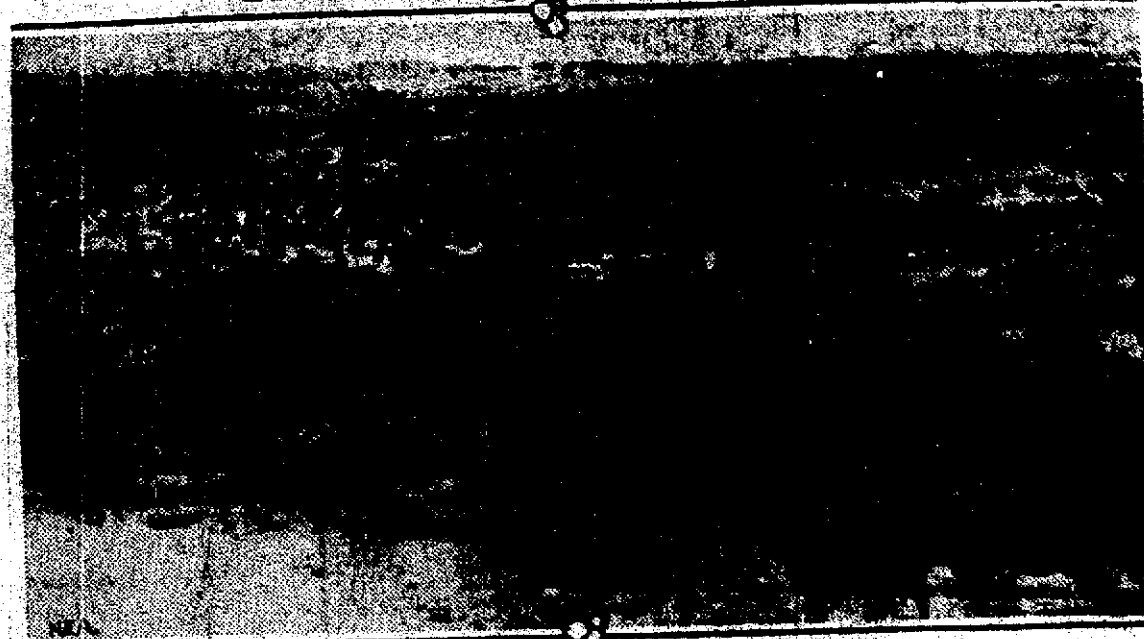

A. K. Wright leaves today for one month at Narragansett Pier, Rhode Island.

Suit of Nails!

In this nail-studded leather suit, Stanley Clarkson of St. Paul fought hand-to-hand encounters with the Berce timber wolves of northern Ontario. While armed only with a double-bladed hand-axe, he was attacked by five of the beasts, killed two of them and drove the others away.

Real Wild West Thrill This!

Condemned to die because the herd had grown too large, 1000 buffaloes were stirred into a stampede so that moving picture men might catch them in action. The condemned animals mauled and milled with a vengeance until shot down by guards at Canadian Government Park, Wainwright, Alberta. The meat and hides brought fancy prices.

FIREMEN PLAN TO GO TO CONVENTION IN ROYAL STYLE

The regular monthly meeting of the Clearfield Fire Department which was held in No. 1 hall last Friday evening was well attended by members of all four companies. A high degree of interest was manifested in the District Firemen's Convention which will be held this year Aug. 20, 21, 22, at Patton.

Most of the firemen will attend the convention on the big day, which is Thursday, August 21. They will have with them our peerless American Legion Band to furnish sweet strains of music in the parade and take a try at first prize in the band concert in the evening.

No ordinary means of transportation will suffice for such an array of musical talent and gallant fire fighters, so arrangements have been completed to have the N. Y. C. run a special train to Patton in order to show the Cambria county mountaineers how to arrive at so important a gathering. A complete schedule for the train will be published later.

Music hath charms, they say, and these, like all other charms, have a price. To the end that the price of taking the band to Patton may be met, the Fire Department will hold a Grand August Festival in Witmer Park, Tuesday evening, Aug. 12, to which the public and all others are invited. (Please bring your pocket-book.)

The band will be there to play some music to assist you in spending your money to help them play some more music which will bring in some more money, we hope; this last being the first prize at the convention.

Tickets have been printed and are being sold by the firemen, so get a large supply, thus helping out both the Fire Department and the band.

TWO MINERS KILLED

Nanty-Glo, Pa., Aug. 6 (INS).—Two miners were crushed to death and 50 others narrowly escaped with their lives when a full of rock here today covered the cars in which they were riding to work.

Mine officials gave the names of the dead men as Stephen Kourousky and John Kosh.

P. P. S. FOLKS PICNIC

The employees of the Penn. Public Service Company for this district are picnicking at beautiful Irvin Park, Curwensville, today. A couple of hundred people are in attendance and all are enjoying the day to the limit.

"Listening In" has a great message. Newsy, interesting, informative.

A QUESTIONABLE RECORD TO HOLD

Munich, Aug. 6 (INS).—Bavaria is taking the world's leadership in the consumption of beer, according to statistics compiled here today.

Every Bavarian drinks from five to ten pints of beer annually.

Heretofore the Hollanders have held the honors, consuming from four to 14 pints each annually.

DUBOIS LAD FALLS INTO STORM SEWER; IS RESCUED AFTER A 75 FOOT JOURNEY

DuBois, Pa., Aug. 5th.—A very peculiar accident and one that almost resulted in the death of a little fourth ward boy occurred yesterday afternoon when Walter Bauer, five year old son of Mr. and Mrs. Eben Bauer, traveled through a storm sewer for a distance of over 75 feet, being rescued at a manhole that distance from the point of entry.

It was an almost miraculous rescue and only the quick thinking of an 18 year old brother of young Bauer made it possible.

There is a 24 inch sewer running from the foot of the Bauer property, 418 Pifer street, to Brady street, and following the heavy rains of yesterday an immense amount of water collected at the foot of the Bauer property and was running into the sewer the current sucking into the pipes being quite strong. It is stated that a plank had drifted across the mouth of the pipe, and that the older Bauer went to remove the plank. The little boy followed him and in some way lost his footing, being sucked into the storm sewer. He disappeared so rapidly that the older boy saw there was no chance for rescuing him at the point of entry. Thinking rapidly, he remembered that there was a sort of manhole on Knarr street, a distance of 75 feet away, where the sewer takes a turn. Running rapidly to this point and summoning help enroute, the heavy flagstone covering of the manhole was thrown aside and the older brother and a man by the name of Cricks got down into the hole, anxiously searching for some trace of the boy. At first none was seen and for a few brief agonizing moments it was believed that the boy had gone past. But suddenly the foot of the youngster was seen, and was caught on the fly. By dint of hard work, the water being about four feet deep at this point and moving rapidly, a firm grip was secured and finally the youngster was pulled to the surface.

The lad was unconscious, and at first it was believed that he was drowned, but first aid work was resorted to until a doctor was secured, and he finally showed signs of life. After working over him for some little time, young Bauer was brought around and it was stated last evening that his condition was very satisfactory and there was every reason to believe that he would fully recover.

In the excitement no one could remember just how long the lad was in the sewer, but it was several minutes, and it would seem almost miraculous that he could come through this experience and still live. It was quick thinking and fine initiative on the part of the older brother that resulted in the rescue.

There was great excitement in the neighborhood and a large crowd quickly gathered on the scene.

Since the above was put in type the Courier has been informed that the young man, doing the actual rescuing of the Bauer boy is named Robert Cricks, a resident of the Fourth Ward, who happened to be in the vicinity when the Bauer boy came rushing down and called that his brother was in the sewer. The Cricks youth is but 16 years old, and it required courage of a high order to get down in the sewer at the manhole and effect the rescue.

ELECTRICAL STORM TAKES HEAVY TOLL IN THIS VICINITY

The severe electrical storm which struck this vicinity about 3 o'clock left quite a bit of minor destruction in its wake and was responsible for the shut down of the American Nickel Company's plant today, while it is said a part of the plant will be idle for several days as a result of damage to the electrical equipment of the plant due to the lightning burning out a motor generator.

A bolt of lightning fell on the house of Thomas Johnstonbaugh on Daisy street, near Fourth at the height of the storm. The lightning knocked several bricks out of a chimney, tore a hole through the slate roof and ripped thru the ceiling into an upstairs room, but aside from scattering soot and dirt from the flue through the house did little other damage.

A fire alarm was sent in and the fire ladders made the race to the Johnstonbaugh home in the midst of the downpour of rain, but fortunately their services were not needed when they arrived, as a hasty survey of the upper floors of the house demonstrated.

Shortly after the Johnstonbaugh home was struck a second bolt fell upon the frame dwelling of Antonio Pizzella formerly the John Shade property on Bigler avenue, just beyond Fourth street, and but a couple of hundred yards distant from the Johnstonbaugh home. The roof of this house was also slightly damaged.

The farm home of A. A. Ardary, located in Lawrence township, about one mile this side of Glen Richey, was struck by lightning during the storm and considerable damage was done.

A Little Hero

When danger swept the storm home in Washington, this boy crawled under the burning building to rescue the pet rabbit he's holding in his arms. Forty children were left homeless by the fire. Only a cat, two rabbits and a dog were saved from the ruins.

EAST END RESIDENT ATTEMPTS SUICIDE BY SHOOTING SELF

Frank Pasquariello, the Father of 8 Children, Says He Was Tired of Life; Shots Fail to Kill.

NOW AT HOSPITAL

Frank Pasquariello, about 45 years of age, and an industrious East End resident for many years, got tired of living last evening and decided to shuffle off this mortal coil by the revolver route. He secured a .32-caliber revolver and took two shots at himself but his head was evidently made out of good "solid wood" and the bullets did not do much more than flatten themselves up against the side of Pasquariello's cranium, although they did, or one of them at least, inflict a painful injury.

No reason can be advanced by Pasquariello or his family for the man's suicidal attempt, except his own statement that he was "tired living and thought he would end it all." It is thought the man was affected by the heat.

Pasquariello, who is employed at the New York Central car shops, is the father of eight children and lives with his family at No. 408 Daisy street. He was sitting chatting with his frightened wife rushed to his side o'clock, when he got up from his chair and, going into another room, secured a revolver and placing the muzzle against the side of his head near the right ear pulled the trigger. With the report of the pistol Pasquariello shouted loudly, "Me shot myself." As his frightened wife rushed to his side another shot rang out and Pasquariello again said, "Me shot myself."

Jim Spingola was at his home directly across Daisy street and hearing the shots and the injured man's cries, he ran over to the Pasquariello home. He found Pasquariello bleeding profusely from a bullet wound in the side of the head in front of the right ear, and with the assistance of other neighbors attracted to the scene located the would-be suicide into his car and hurried him to the Clearfield hospital, where Dr. Woolridge took him in charge.

Pasquariello was conscious when he arrived at the hospital. The doctor could find where but one shot had taken effect. When questioned at the hospital as to why he had attempted to kill himself Pasquariello said he was tired living.

Jump To Greenland Is Delayed Owing To Bad Weather Conditions

Reykjavik, Iceland, Aug. 6 (INS).—Lieut. Lowell Smith and Lieut. Erik Nelson, American army world girdling aviators, who arrived yesterday afternoon from Hofslof Hornsford, rested up today none the worse for their daring 300 mile journey through a 40 to 60-mile gale.

Examination of the planes in the harbor showed that they were in excellent condition. They weathered the storm without a defect.

It is not certain when the remaining two aviators will undertake their flight from Iceland to Greenland, owing to ice conditions off the Greenland coast.

The American flyers are guests of the municipality. They are quartered outside the town.

A wireless despatch from the Danish steamship Gertrude Rask, said she had arrived at Angmagalik, originally selected as the first stopping place of the Americans on the Greenland coast.

According to the Danish ship ice conditions have improved somewhat off the port of Angmagalik. There is still a heavy ice lying in front of Angmagalik which made it extremely difficult for the sturdy Danish vessel to reach the harbor.

American officers are conferring as to when Smith and Nelson shall undertake the next hop. American war craft are taking up stations along the next leg of the route to report weather conditions.

CITY ENGINEER IS STAR SPEAKER AT COMMERCIAL CLUB

The regular meeting of the Commercial Club was held at the usual hour at Jordans with an unusually good attendance considering the intensely hot weather but Jordie very appropriately had a palatable hot weather supper. President Shillingford was in his usual good form and we think especially so by reason of the several committees all present-reports that showed them to be actively on the job. Probably the most important was from the Civic Affairs Committee and what they did with the committee of the Borough Council on their recent tour of inspection of lighting systems for the streets of some of our neighboring progressive towns. The Publicity committee and "Lakes-to-Sea Highway" committee reported action along many lines. Chr. Nightingale told of over 1000 requests from individuals all over the U. S. for our special highway road map and folder. Chr. Frantz called attention to the advertisement of old Clearfield on the Lakes-to-Sea in last Sunday's Public Ledger and another to be in Thursday's Evening Ledger, which certainly put our town on the map. He also presented each member present with a beautiful road map of the state which the club had helped to finance.

President Shillingford then introduced the speaker for the evening Mr. E. W. Hess, City Engineer, who in his usual good style gave facts and figures of our city's public improvements finished and contemplated. As a booster for his home town we know of now one who has it on our friend, Edward and at the completion of his highly interesting talk he was given a round of applause and a vote of thanks by the club members.

The special music for the evening was rendered by Prof. Carley of Curwensville on the accordion in quite a novel manner. The postponed picnic of the club will be held at Irwin Park August 21st.

FOG WAS CAUSE OF MACLAREN'S HAVING TO QUIT FLIGHT

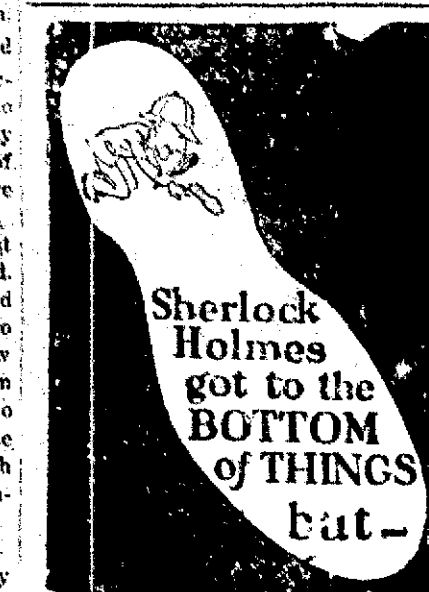

London, August 6. (INS.)—A thick fog along the Kamchatka coast, which prevented the flyers from seeing more than 100 yards in front of them caused the disaster which compelled Flight Commander A. Stuart MacLaren, of the British air force, to abandon his round the world journey after finishing about three quarters of it, according to advices received here from MacLaren today.

"The fog was so thick it almost blinded my pilot," MacLaren said. "Suddenly he swerved the plane and avoided a small island by only two feet. It disappeared from view a few seconds later. We judged we were in danger of striking cliffs so decided to make a forced landing. We hit the ocean along a strong swell and both top wings were shattered and wrenched off."

ODDS AND ENDS AND THINGS

By J. D. C.

President Judge A. R. Chase, of Clearfield county, is not only an able jurist, but is both resourceful and long-headed, as we regard that term in these parts. Monday morning Steward Bowman of the County Home, was hustling rapidly through the Court House corridor on the way to his waiting car for a trip back to the home farm after attending to a business call from the County Commissioners' office.

Judge Chase came down the steps from the judicial chamber as the steward came bustling along. "What's the hurry, Tom, where are you bound for in such a rush?" queried the Judge. "Back to my harvest field, Judge," replied the steward; "we are up to our necks in harvest, can't get labor to help garner our crops, and I had to lose two whole hours this morning coming in to fix up some business matters at the office here."

"How many men do you need right now to help get that harvest in, Steward?" the Judge's next query. "Could use five, if I could get them, but would be glad to get even one," was the rejoinder of the steward.

With that Judge Chase informed Steward Bowman that he thought he could get him the required harvest hands. "He then asked the hard-headed farmer to accompany him to the County Jail. They soon reached the jail and when Warden McClure let them inside, His Honor told the Warden to look up his jail records and pick out five husky prisoners, preferably farmers. The Warden did so and was invited to bring the five farmers out of the jail proper into the corridor.

When the five prisoners faced the Judge he noted that all were men and sentenced them all for bootlegging and all had a fine time to settle the charge for bootlegging their property. He then said, "Boys, I have a proposition to make to you; we are very short of harvest hands at the County Home Farm and can't get any more. I promised Steward Bowman to get him some harvest hands. You fellows all have had experience as farmers and were brought out here because of that fact. If you are willing to go out to the County Home Farm and give us your best efforts in the harvest fields until harvesting is over Steward Bowman will feed you well, allow you the prevailing wage per day as farm hands and the money you earn will be paid toward the payment of your fine and costs. Are you willing to take the job?"

No need to add, every last one of the prisoners jumped at the chance and were on their way to the farm in a very few minutes. Steward Bowman said he never saw a better crew in a harvest field than this bootlegger crew.

When the news of the good fortune of the five "farmers" got about the town, no less than thirty of the remaining thirty-five prisoners expressed their willingness to take a harvesting job under similar circumstances.

Mr. Ella Shaw, who finds time to

look after a fair-sized flock of chickens at her home, corner Market and Front Streets, has a pair of pure-bred Buff Plymouth Rock pullets which were hatched out on March 4th, 1924, each of which laid its first egg on Monday, or at the age of 4 months to the day. That is surely a record-breaking performance.

Some outlaw up in the Berwinstale country shot a fine 2-prong buck one day last week. The animal got away from the killer and jumping the fence into a field where a man was harvesting gave up its life. Constable Thomas was notified and took possession of the deer, which had been shot through the stomach. He sent the animal to the Children's Home here, but the meat was spoiled when it arrived and the carcass was turned over to the Clearfield Taxidermy Shop where it will be mounted. As the horns are in "the velvet" it will be a unique specimen.

We want you to read "Listening In" on the back page tonight.

Hon. Theodore E. Burton Sounds Death Knell Of Plan To Cancel War Debt

Williamstown, Mass., August 5. (INS)—Foreign debts owing to the United States will not be cancelled and there is no desire on the part of the American people that they should be cancelled.

This was the gist of a letter from Theodore E. Burton, member of the United States Debt Funding Commission, read today before members of the Institute of Politics in session here.

"The sentiment of the people is overwhelmingly against release of the so-called foreign debts," Burton wrote, adding that votes in Congress and expressions of opinion in the press and otherwise had indicated this sentiment. Burton said cancellation would not be fair or just because it would "create not merely confusion and distrust, but 'would seriously impair future transactions and future development.' The letter further pointed out that the advances were made from borrow-

ings by the government from the people and that America's tax rate was "quite as great if not greater than in the countries of Europe whose obligations we hold."

Burton, in closing his letter said he could not too strongly emphasize "the fact that the only effective means to provide for payment of debts and the healing of economic life of nations must depend upon progressive disarmament and the maintenance of peace."

Mr. and Mrs. E. J. Turner and daughter, Pauline; Mrs. Beatrice Richards and little son, Chester; Mr. and Mrs. Charles Cowdick and son, Charles, Jr.; all spent Sunday with relatives in Lock Haven.

Mrs. Edith Hipps of the Hipps-Thompson Specialty Shop is in New York on a business trip in connection with the store.

FOR SKIN TORTURES

Zemo, the Clean, Antiseptic Liquid, just What You Need

Don't worry about Eczema or other skin troubles. You can have a clear, healthy skin by using Zemo obtained at any drug store for 35c, or extra large bottle at \$1.00.

Zemo generally removes Pimples, Blackheads, Blisters, Eczema and Ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating antiseptic liquid. It is easily applied and costs a mere trifle for each application. It is always dependable. Zemo Soap, 25c—Zemo Ointment, 50c.

How to build up your Weight

To be under weight often proves low fighting-power in the body. It often means you are minus nerve-power, minus red-cells in your blood, minus health, minus vitality.

It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus.

That's why S. S. S., since 1826, has meant to thousands of underweight men and women, a plus in their strength. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will build them.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

Our Upholstery Shop Fully Equipped

Our upholstery shop is fully equipped and in charge of a man who can do anything in the upholstery line. You will find him an artist in his line and some of the work he has turned out has brought the highest praise from particular people.

LEITZINGER BROS.

The Principle Is Right

The EASY Vacuum Electric WASHER

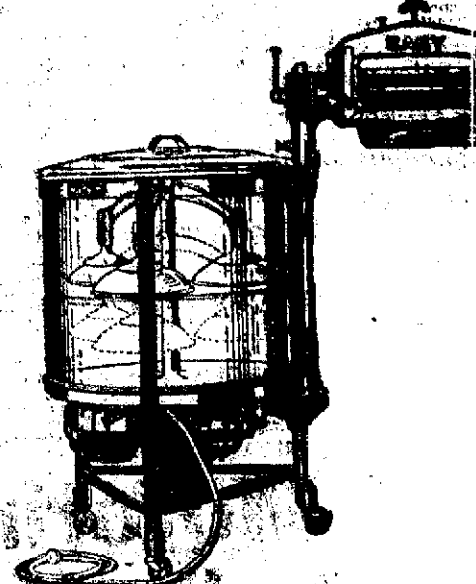

Is the result of 45 years' conscientious development of a basic idea, fundamentally right, namely, the use of the air pressure and suction principle in washing clothes.

In Grandmother's day, the housewives all knew that the "metal cone on the end of the stick" would wash clothes quicker, cleaner and with less wear and tear than by the use of the rub-board. So it has been up to the present time. The modern way to wash clothes is expressed in the fully developed "EASY" Washing Machine. Sturdy, clean cut, bright and sanitary, the "EASY" awaits the touch of a button to do your bidding.

You owe it to your own future happiness and health to make it a point to have us explain this labor-saver to you.

The "EASY" VACUUM-ELECTRIC WASHER with solid copper tank, swinging aluminum wringer and gas water heater, is \$155.00.

EXTENDED PAYMENTS
Pleasingly Arranged

The "EASY" capacity tank is made of solid heavy gauge copper, highly polished outside and especially finished on the inside to prevent discoloring. It is absolutely sanitary and easily cleaned. From the instant safety release on top of the wringer to the sturdy "three-point support" easy rolling casters wheels, "EASY" VACUUM-ELECTRIC WASHER is everything that the careful housewife would ask in a washer.

SIMPLE PSYCHOLOGY

It is a relief to find, from the news accounts of a Chicago murder trial, that a certain alienist, testifying on the witness stand for a while day, "never used a technical term." He is said to have talked simply and clearly about the mental condition and history of the defendants, just as any clear-headed and plain-spoken business man might be expected to talk of some interesting phase of his own business.

Alienists have earned considerable disrepute, largely because of the terrific jargon they use. Yet they are concerned with a highly important branch of human knowledge, and are often making valuable contributions to it even while their hearers and readers are unable to follow what they say.

There is no science more important for people in general to understand than the science of the human mind. Most of us are concerned mightily with getting ideas and feelings into our minds and out of them into other people's minds, while having but the dimmest notion how any of our minds really work, and what is the best way to use them.

"Normal psychology" ought to be a familiar study. "Abnormal psychology", which deals with unusual and diseased workings of the human mind, should be known far better than it is, in order to understand peculiar people and know how to deal with them in the ordinary affairs of life or in cases of extraordinary behavior. All this would be made much easier if psychologists generally would follow the example of the professional witness referred to.

Psychology never has been necessarily difficult. William James, the biggest of American psychologists, nearly always expressed himself clearly and simply.

WHAT AFTER FIFTY?

A writer in The Christian Century inquires how a successful man should spend his life after the age of 50, and asks such pertinent questions as these:

"Should such a man largely and increasingly give of his time to the cultivation of his own physical, mental and spiritual well-being and that of his family? Should he also give largely of time and money to organizations for the betterment of society and in furthering personally other religious work? Is it wise for a man of fifty, during his remaining years, to gradually sell out his business to employees of tested ability and thus give them greater opportunity for service and reward? After providing reasonably by will for wife and dependents, should such a man aim, while yet living, to administer and distribute the bulk of his estate for God and humanity, rather than leave his means to expectant heirs, or even to his adult children?"

The plain implication is that in the case of an elderly man who has been successful in material things, his wife and children probably need him more than they need his estate. Why, then, go ahead and accumulate more property?

John H. Clarke, late justice of the United States Supreme Court, attracted wide comment by retiring in order, as he explained, to be free to perform certain public services he had in mind and "to become acquainted with his own soul". He was past 60 and had no family.

Fifty is not "old", any more, as it used to be. Youth and middle age last longer. But surely there is no special merit for any man, especially a well-to-do man with a family, in plodding on and "dying in the harness", instead of starting, before old age comes, to relax, broaden and humanize his activities, to cultivate family and friends and books and fine living generally, and do at his leisure things long desired but impossible because of the daily grind.

OUR EQUIPMENT
The Trust Department

The advantages of naming a financial institution instead of an individual as executor of your will are many.

Your trusted friend may lack the experience or ability to properly safeguard your estate. The Bank's Trust Department is organized to handle such matters and is equipped to take care of them wisely.

An individual may not be able to give the time from his own business to look after the affairs of your estate.

Your friend named as executor may be swayed by sentiment.

The bank's position in such matters is always disinterested. Its only business is to see that your estate is managed according to the terms of the will.

When you make your will name as executor an institution which is in that business.

This bank's trust department is experienced and capable.

Progress Editorials for Women

WE BEG TO DIFFER

By FLORENCE DAVIES

Ida Clyde Clark, contributing editor of Pictorial Review, internationally famous as a protagonist of world peace, and incidentally one of the most brilliant platform speakers in our country, has made a wholesome discovery.

She counted up what women's club conventions cost, and announced that this old wheeze, that women haven't the money, is all the bunk.

Women, says Ida Clyde Clark, have plenty of money and they know how to spend it when they want to. The amount that women spend on club luncheons and club conventions in one year, would make any national party presidential campaign fund look sick.

That just goes to prove that if it's money that's needed to put a thing over the women either have the money or know where to get it.

But Mrs. Clark draws a conclusion from this discovery which we respectfully question. She says that if half the money that was spent by women for luncheons and conventions was applied to a few of the causes in which they are interested, more would be accomplished.

Yes, and no. We admit that half of the money spent by the several thousand delegates who attended such a great convention as that held by club women of America at Los Angeles recently, would finance some world-wide movement.

We admit that in almost every such logic

thering, there is much lost motion, much that is trivial, much that is purely entertaining, aimlessly controversial or insignificant. We admit that most of the real business is done in committee, that practically nothing of importance is accomplished on the floor of the convention, and that most real thinking is done by twos and threes and not by hundreds and thousands.

But in spite of all this, we respectfully suggest that Mrs. Clark, one of the keenest minded, most stimulating, most inspiring women in the whole women's movement, is mistaken.

The getting together is worth while. It is a great, world-wide gesture, an expression of something intangible but nevertheless real, a dramatic and definite, though doubtless unwieldy, method of expressing a very real and very precious thing. It helps to create that great body of enthusiasm, or mutual belief in the power of women to get together and act. It helps to make of the nation, even of the world, a great community, it crystallizes a vast neighborhood spirit.

Yes, it is worth while, even though the meetings themselves offer a good deal of eloquence that gets nowhere in particular; even though, alas, there are many little shameful bickerings, too much petty politics, small jealousies and unfairness. These are pin pricks. The great, intangible will toward mutual understanding remains. It's just one more seemingly illogical thing which, like sentiment, like love, remains in the end, the only lasting

Rat Fur
Wrap

WHAT'S in a name? Common palm tree rat of the Cucosense called "harunduk" by great French dressmaker Jean Patou and made into a charming summer fur wrap trimmed with red fox

When the water is so hard it scratches the bath tub—use Blue Devil.

Broke His Vow

"After trying all remedies and doctors for stomach trouble for eight long years I decided I couldn't be helped and swore I would never take another dose of any kind of medicine, but when I saw what Mayr's Wonderful Remedy did for a friend who also suffered from bloating as I did, I concluded to try it myself. It helped me at once." It is a simple, harmless preparation that removes catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince of money refunded.

At all Druggists.

Jeannette, Pa.—Chas. Faull, 21, died at the hospital here today from a fractured skull received when an automobile in which he was riding turned turtle near here late last night and Faull was pinned under the car. Faull and William Evans were on their way to Butler Mills, near here, when the car skidded, left the road and turned over, pinning Faull under it. Evans was slightly injured.

Farrell, Pa.—A double funeral will be held at Yulaska, near here, tomorrow for Mrs. Irene R. Heie, 21, and her sister, P. Heie Haggerty, 14, who were drowned while bathing in the Allegheny river, when they stepped beyond their depth.

Another sister, Loretta, nine years old, ran for help to save the drowning girls, but could not summon anyone in time to save them.

Pointed Remarks

A fussy old woman inquired in a druggist's the price of brimstone. Upon being informed, she replied that she knew where she could get it cheaper. "If it's cheaper you want," replied the clerk, "and I wasn't afraid of getting fired, I could soon tell you where you could get it for nothing!"

\$2500 Secures This
Modern Home

Situated on Leavy Avenue in the Home Builders' Plot. House is of frame construction, with living room, dining room and kitchen downstairs, three bedrooms and bath on second floor with roomy attic on third floor. Foundation is of stone with cemented cellar and sidewalls. Electric fixtures are modern in every respect. House is painted a cream color with golden brown trimming. Wide roomy porch in front as shown in picture.

Lot is graded ready for grass seed. Has concrete walks in front and leading to rear door. Young shade in front. Lot is 50 by 89 feet.

A payment of \$2500 secures this home and the balance may be paid as rent.

Why It Will

Pay You To

Trade In Clearfield

The man you don't like is the man you don't know.

Abraham Lincoln once said that he didn't know very much about theories concerning trade, but he did know that when America bought a ton of steel in England for twenty dollars, America had the steel and England had the \$20.00, but when an American Firm bought a ton of steel from an American manufacturer, America had the steel and also the twenty dollars.

Clearfield is the center of this community and a vital part of it. Every family living in Clearfield or within the trade radius of Clearfield has a financial interest in its prosperity and growth. Of course, no fair minded man would say that you should spend your money in Clearfield unless you were getting honest values, and unless it is better business for you to make the purchase here than elsewhere. In deciding this there are many things for you to consider. It is the custom of all mail order establishments to advertise certain leaders. Items of such worth that the apparent value is obvious. Items of such worth that the apparent value is obvious. It is the same old deal as forty pounds of sugar for a dollar provided you buy a certain amount of other merchandise of unknown and doubtful value. But when you buy of your neighbor who is maintaining a mercantile establishment in Clearfield you know that you are receiving a service that no foreign corporation can possibly give, and you also know that that man has his home and all his money invested in your community and that he cannot possibly afford to defraud you. The reason he cannot is simply this: There are only so many thousand people who can possibly transact their business in Clearfield and no merchant can hope to succeed unless he wins the repeated orders, or in other words the regular trade of a considerable portion of these permanent residents. If he undertakes to skin them then he will get once round mighty quickly and it is an expensive job to move out of a community where you have been in business for years.

It will pay you to establish real human relations as well as business relations with the good fellows who are located in your town because after all, this is your town quite as much as any one else. You are always welcome and every merchant in Clearfield is ready to go down in his pocket and help pay for anything that will make your stay here more pleasant; of course having in mind that if you like the town, you will bring your family to its markets and thus add to its prosperity and development.

When we begin talking about the town and the country and always think of it as Our Community, then we will begin to work together in earnest for a Bigger and Better City.

And when you know the Grocer as "Bill" and he calls you "John" and you serve together on committees, the question of where your trade goes will be automatically solved.

There are thousands of good reasons for keeping our money in Clearfield but the only reason that will keep it here is because you like to do business with the merchants of Clearfield.

They want your trade and they are trying to give a dollars worth of service for one hundred cents. Lets get together and make everybody that finds out about us sorry that they don't live here.

Frank Hasting, of Clearfield, is visiting friends in town this week.

Mrs. Letterio Errigo will return this evening from New York City, where she was summoned by the illness of her father.

Joseph Orlando, is erecting a garage near his home, on North Filbert street.

Miss Lenore Smith is recovering from blood poisoning in her ankle.

Thornton Hile, of Clearfield, was in town yesterday calling on friends.

Misses Jeanette Strickland, Margaret Kelly and Margaret Rhodes, who attended Clarion Normal school, spent the week end here with their parents.

Miss Alice Ammerman, of Philipsburg, is spending a few days in town with friends.

Miss Alice Ammerman, of Philipsburg, is spending a few days in town with friends.

Joseph Errigo is building a new porch to his residence on North street.

The Protected Home Circle held a meeting in the Red Men's Rooms last evening. A class of about ten members was taken into the circle.

Sport News

BASEBALL DOPE

The terrific electrical storms which struck this section yesterday afternoon about 3 o'clock put a crimp in both C. & C. League games. Philipsburg was scheduled to play Clearfield at the Park here and both teams were at practise when the deluge came. The Rum-Dubs were on the bills for a game at Osceola, but it, too, was knocked "galley west" by the storm.

The Osceola team will meet Clearfield at the Clearfield Park tomorrow afternoon. The game will start at 2 o'clock instead of 3:30. Don't forget this fact. The early starting hour is made necessary because of Sunday School Field Day at Irvin Park at Curwensville. Rev. Shaulis and another local player or two are due to play baseball at Irvin Park later in the evening and the time of the league game has been shot ahead one hour and a half to accommodate them and also allow a lot of our baseball fans an opportunity to take in the Field Day program, which is indeed worth while.

The Clearfield team is going at top speed right now, and the fans should appreciate that fact and show their appreciation by attending the game tomorrow afternoon, and all the games for that matter.

Those Hillsdale Terrors, who have been walloping tough-shod over all the other teams in this region, sort of "got their combs out" in a twilight game with Manager Teats' Reedsville Pirates. The Pirates skinned the Terrors 2 to 1, and are a unit in saying they can do it again any time. The game was played at Reedsville and the

John Errigo and children of Punxsutawney, spent the week end here with relatives and friends.

Hillsdale management are said to attribute their defeat to the "low visibility" at the foot of the hill, and to the further fact that Grandpap Dewey had mislaid his rule book and they were not sure whether or not the licking had been given them as the rules provide.

A Cordial Invitation

You and your friends are cordially invited to attend the Opening of the beautiful new banking home of the Curwensville State Bank, which will open for business Saturday, August 9th, 1924.

You are welcome at any time to call and inspect this building, which is one of the most complete modern and up-to-date institutions in this section of the country, yet Saturday, August 9th, has been especially set aside as "Open House for visitors.

The many convenient and complete features of the bank will be shown and explained by the officers, directors and employees, and especially interesting to visitors will be the massive vault which is the last word in vault construction.

In order to give everyone an opportunity to view our banking quarters the bank will remain open during the evening of Opening Day.

REMEMBER—NO OTHER INVITATION IS NEEDED. We expect you and your friends at our Opening.

JORDAN'S

Gossip for Tonight's Tea Table

Mr. and Mrs. Eldon Read and son Kenneth and Mrs. Read's father and mother, Mr. and Mrs. John Hughes and nephew, John, have returned from a week's motor tour, stopping at Franklin, Tarentum, Pittsburgh, Harrisburg and Williamsport to visit relatives. On their return from Pittsburgh they stopped at Gettysburg and visited the battle field while there.

Graydon Thorn arrived home from a hiking trip from Cincinnati, Ohio. He left there on Friday morning and arrived home on Sunday night, having walked but ten or twelve miles. He not only was given "lifts" by motorists but they all insisted upon treating him as their guest, treating him most cordially.

Mrs. George DeHaas and son Paul of Philadelphia, are visiting Mrs. DeHaas' sister, Mrs. George Thurston, and her mother, Mrs. M. J. Norris, of Keokuk.

Mrs. Harry Dukeman, of Bellefonte is a patient at the Clearfield hospital.

Miss Ninevah Kirk, of Tyrone, is visiting Miss Clara Davis. Miss Davis entertained in her honor on last Friday evening.

Howard Murphy and two daughters of Johnstown are visiting at the home of Mrs. Murphy's brother, C. M. Murphy.

Prof. Chas. Rockwell, of Phillipsburg, was in town yesterday looking up old friends.

Miss Meriam Smith of Bellefonte, is visiting at the home of her uncle, J. H. Martin on Ogden avenue.

Charlotte Zerfoss was given a delightful surprise party at the home of E. D. Vandling. Every one had an excellent time and enjoyed the surprise as much as Charlotte did.

Chas. S. Strong, a prominent merchant of Ansonville, was in town on a business trip on Tuesday.

Julian Crozier, of Norwich, Conn., one of the original promoters of the Textile Works, is visiting at L. P. Gaynet's home on Turnpike avenue. Mr. Crozier spends his time between the works in Clearfield, Norwich and in France.

Mrs. F. B. Kerr and Mrs. Hazard Murray are giving a luncheon today at the Country Club in honor of their sister, Mrs. Robert Youngman, of Pittsburgh.

Mr. and Mrs. B. K. Stewart and children arrived last evening from Birmingham to spend the night with Rev. and Mrs. N. B. Smith on Turnpike avenue. Today they expect to leave to drive to Columbia county and Pottstown taking Mrs. Smith with them. They will get Miss Mida Smith at Pottstown and from there they will visit Gettysburg battle field.

Miss Jean Thurston returned Monday evening from a visit with friends in Snow Shoe.

Kathryn Yeaney arrived at home after a delightful month of camping in the Pocono mountains.

Mr. and Mrs. P. W. Spiches and family of Indiana, spent the week end at the home of Mr. and Mrs. C. B. Hollenper on Ogden avenue. Mrs. Spiches is a sister of Mr. Hollenper.

Dr. and Mrs. Fitzgerald and daughter Louise, of South Fork, have been visiting at the home of E. K. Moore. Miss Louise was a student at Virginia College, Roanoke, and was a school mate of Kathryn Moore and Virginia DeHaas.

THE YELLOW (GOLD) DOGS TO INVADE NEW MILLPORT FRILEVE.

Prof. Grant Norris, at the last meeting, gave the true meaning of the Yellow Dogs. He says that every true Yellow Dog is ALL GOLD, and the only way he can get out of the organization, once in, is to act as the world knows a yellow dog to act. This Transcendental Organization is now busy making its plans for Labor Day at Curwensville, September 1st. This organization has proved its right to exist and has already made a commendable addition to Irvin Park, Curwensville, by erecting a splendid auditorium, 100 by 50 feet, with a good platform for speakers and band concerts, and a floor that is already tickling the toes, not only of the young people of this vicinity, but of some of the old timers who used to dance at corn huskings and apple butter parties all over the central parts of Clearfield county.

The next big meeting of the Yellow Dogs will be held at New Millport, the town that the chief cur can never forget when he has anything to say, on Friday evening of this week, August 8th. It is expected that at least 100 automobiles will be in New Millport on Thursday night of this week. Burgess K. A. Sloppy is making every preparation to receive this large gathering of Yellow Dogs.

We understand that a large Yellow Dog meeting is scheduled for Irvin Park, in the K9Kannel, for Tuesday evening, August 12th. Already over 108 applications have been received for initiation, so this promises to be a very large night. Be sure to have your collar and license tag on for the 12th of August.

The official emblem of the Yellow Dogs will be mailed out this week. It is expected that every Yellow Dog will wear his emblem at all stated meetings in the future. August 19th is also scheduled for a meeting of the Dogs at Irvin Park, and August 28th. We are glad to have these dates, and now no one needs to grieve over not knowing about the meetings.

August 25th is scheduled for the big opening dance at Irvin Park. The organization is paying \$180.00 for an

orchestra for this night. It is gratifying to know that Irvin Park is free to everybody. The only reason there is an Irvin Park is that men, women, and children may have a delightful place to go and spend a day of recreation. If you want the Park for a day, call up Mr. Ashley Bloom, chairman of the Park Committee, and arrange your date. People from far and near are making good use of this beautiful Park, Curwensville certainly is generous.

Note: We have looked over all the maps we have and cannot find Grant Norris's big town, New Millport, but we are determined to find out and be there. We are told that we must go to Olanta and then drive up Little Clearfield Creek until we come to a very sharp turn and stop.—Editor.

Mrs. Annie Connelly who was called to Elyria, Ohio, last week on account of the serious illness of her daughter, Mrs. James Elemen, returned home last evening and reports Mrs. Elemen much improved. She also visited her son John and daughter Mrs. W. A. Managan at Detroit, while away.

Mr. and Mrs. M. P. McDonald returned to their home on Cherry street Monday evening after spending several weeks with their son James and daughter Mrs. Lawrence DeFerie, in Detroit.

A TEST OF YEARS

Is the Experience of This Clearfield Resident.

Are you miserable with an aching back? Feel tired, nervous and run down? Do you have daily headaches, dizzy spells and annoying urinary disorders? Then why not take the advice of a Clearfield resident who suffered as you do and found lasting relief by using Doan's Pills—a stimulant diuretic to the kidneys? Here is a Clearfield case that the years haven't changed. Why not profit by it?

Lewis E. Wise, prop. restaurant, 2 Nichols St., residence 404 River St., gave the following statement February 17, 1917:

I was taken with pain in my back. I couldn't bend over and I had pains in my limbs, too. I used Doan's Pills and the pains and lameness in my back left.

On September 17, 1923, Mr. Wise said: "The cure Doan's made for me has lasted."

RAILROAD OFFICIALS HERE

Division Supt. Howard Scott of the New York Central Railroad Company, with a retinue of subordinate officials of the company, visited Clearfield yesterday on business concerning their railroad.

PESKY BED-BUGS

(Pesky Devils Quietest) P. D. Q. is the new chemical that puts the pestering bedbugs, roaches, fleas, ants and moths—impossible for the pesky devils to exist where P. D. Q. is used.

Recommendations of Hotels, Hospitals, Railroad Companies and other public institutions are a guarantee to the public that the safest, quietest and most economical way of ridding the pesky insects is by the use of P. D. Q., as this chemical kills the eggs as well as the live ones, and will not injure the clothing.

A 25c package makes a full quart, enough to kill a million bedbugs, roaches, moths or cockroaches—and also contains a patent sprout to get the eggs nests in the hard-to-spray places and saves juice. P. D. Q. can also be purchased in sealed bottles, double strength, 50c a bottle.

Sold by Stewart Drug Company and all leading druggists.

Killing Flies Important Now

Now is the season of the year when you should pay particular attention to ridding your house of the flies and we want you to know that we have everything here to aid you in your fight against these pests.
